

Systematic Spending

Practically every individual today is aiming to reduce personal expenses in order to better meet increased living costs and respond more liberally to our Government's call for "fighting dollars."

In this connection a Checking Account is invaluable.

It provides an accurate account of all financial transactions; it records every expenditure in a concise form convenient for ready reference and careful comparison.

This Institution especially invites Checking Accounts.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

If you're going away this summer on a vacation, don't forget that an extra pair of glasses is a necessity and good insurance against spoiling the good time you're planning.

You can't obtain glasses in the woods, and optical service at resorts is generally of a very questionable quality.

The extra pair won't cost much—order it now.
